University of Hawai'i Manoa Consent to Participate in a Research Project

Project title: Trail Management in Hawai'i

Aloha! You are being asked to take part in a research study that will determine your preferences for outdoor recreation as part of an investigation conducted by the University of Hawai'i - Mānoa. You are eligible for this study if you are resident in Hawai'i, or have been a visitor to Hawai'i, and you are at least 18 years old.

Objectives: The goal of this research is to understand how people make choices about trails in Hawai'i. We are interested in how different trail features, such as habitat quality, trail condition, crowding, and cost, affect these choices. The information collected will be used to better understand trail use and management preferences.

Project Description – Activities and Time Commitment: If you decide to take part in this project, you will be asked to fill out a survey. The survey questions are mainly multiple choice. However, there will be a few questions where you may add an open-ended response. Completing the survey will take between 10 and 12 minutes. We expect around 800 people will take part in this project.

Benefits and Risks: There will be no direct benefit to you for taking part in this project. We hope that the results of this study will lead to a better understanding of the economic impact of environmental changes and we are hopeful that the results will be used to inform future environmental policy in Hawai'i. There is little risk to you for participating in this project.

Confidentiality and Privacy: The study collects no personal identifying information - you will remain anonymous. The records from this study are kept private and only UH researchers will have access to them. Please do not include any personal information in your survey responses.

Voluntary Participation: You can freely choose to take part or to not take part in this survey. There will be no penalty or loss of benefits for either decision. If you do agree to participate, you can stop at any time.

Questions: If you have any questions about this study, please call or email me Kirsten Oleson at 808-956-8864 or koleson@hawaii.edu. You may contact the UH Human Studies Program at 808-956-5007 or uhirb@hawaii.edu to discuss problems, concerns and questions; obtain information; or offer input with an informed individual who is unaffiliated with the specific research protocol. Please visit <https://www.hawaii.edu/researchcompliance/information-research-participants> for more information on your rights as a research participant. Please print a copy of this page for your reference.

Do you agree in taking part to this survey? (Clicking "YES" implies your consent to take the survey)

- ☐ Yes
- ☐ No

State: Residents & Tourists

In which state do you currently reside?

Have you visisted Hawai'i within the past 3 years?

- ☐ Yes
- ☐ No

Demographic

How old are you?

- ☐ Under 18
- ☐ 18-24 years old
- ☐ 25-34 years old
- ☐ 35-44 years old
- ☐ 45-54 years old
- ☐ 55-64 years old
- ☐ 65+ years old

What is your sex?

- ☐ Male

- ☐ Female
- ☐ Non-binary

Choose one or more races that you consider yourself to be

- ☐ White or Caucasian
- ☐ Black or African American
- ☐ American Indian / Native American or Alaska Native
- ☐ Asian
- ☐ Native Hawaiian or Other Pacific Islander
- ☐ Other

What is the highest level of education you have completed?

- ☐ Some high school or less
- ☐ High School diploma or GED
- ☐ Some college, but no degree
- ☐ Associates or technical degree
- ☐ Bachelor's degree
- ☐ Graduate or professional degree (MA, MS, MBA, PhD, JD, MD, DDS etc.)

What was your total household income before taxes during the past 12 months?

- ☐ Less than \$25,000
- ☐ \$25,000 - \$49,999
- ☐ \$50,000 - \$74,999
- ☐ \$75,000 - \$99,999
- ☐ \$100,000 - \$149,999
- ☐ \$150,000 or more

Which statement best describes your current employment status?

- ☐ Working (paid employee)
- ☐ Working (self-employee)
- ☐ Not working (temporary layoff from a job)
- ☐ Not working (looking for work)
- ☐ Not working (retired)
- ☐ Not working (disabled)

☐ Not working (other)

What is your US Zip Code?

User Demographic

On which Hawaiian island do you live?

- ☐ O'ahu
- ☐ Māui
- ☐ Lānaʻi or Molokaʻi
- ☐ Big island (Hawaiʻi)
- ☐ Kauaʻi

On which Hawaiian island did you visit?

- ☐ O'ahu

- ☐ Māui
- ☐ Lānaʻi or Molokaʻi
- ☐ Big island (Hawaiʻi)
- ☐ Kauaʻi

What is your residency status in Hawaiʻi?

- ☐ Part time (less than 6 months) Hawaiʻi resident
- ☐ Full time Hawaiʻi resident

Hawaiʻi has a network of public trails across the islands, some of which are managed by the State Department of Forestry and Wildlife through the Nā Ala Hele Trail and Access Program. For the purposes of this survey, when we say “trails,” we are referring to these types of public hiking trails.

Have you ever used the hiking trails in Hawaiʻi?

- ☐ Yes
- ☐ No

What is your primary reason for using trails?

- ☐ Other (Please enter answer in the box)
- ☐ Recreation (general leisure hiking for enjoyment)
- ☐ Spending time with family / friends
- ☐ Photography
- ☐ Collecting plants for cultural purposes
- ☐ Hunting
- ☐ Exercise
- ☐ Cultural connection

How many times do you use trails in a typical month? Please enter a number.

WTP Prompt

In the next section, you will be shown a **series of 4 questions** about management of hiking trails in Hawai'i.

Each question will display **2 trail alternatives** side-by-side.

Each alternative will have the **same 4 features**:

- **Trail Condition** – How well the trailbed and infrastructure (e.g., signs, surface) are maintained for usability and safety.
- **Habitat Quality** – How well native plants are maintained and invasive and non-native species are controlled through vegetation management within the trail corridor (about 10 feet on either side)

- **Crowding** – The number of people you encounter per hour on the trail.
- **Cost** – An additional cost per trail use that would help support management.

Each of these features has **3 levels** (Low, Medium, and High). The **features stay the same** across all questions, but their **levels will vary**.

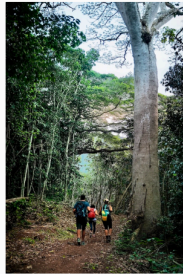

For each question, **your task** is to choose the alternative you prefer most. If neither alternative appeals to you, you can choose “None of the options”.

On the next page, you'll see an **example question** that explains how to make your choice.

This page includes a 35-seconds timer. The Next button will appear once the timer ends. Please use this time to review the information above.

34

Here's an example of what the questions will look like. Please **review each alternative** carefully, **including the levels** of the four features.

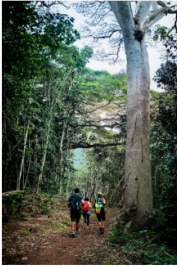

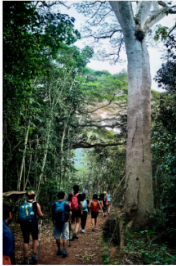

Condition	maintenance; many areas show wear, erosion, or broken infrastructure)	maintenance; some areas show deterioration or infrastructure issues)
Habitat Quality	Moderate chance of seeing native species; a mix of native, non-native, and invasive plants along the trail	High chance of seeing diverse native species; native plants dominate most areas along the trail
Crowding	 0 - 5 people encounter per hour	 Over 15 people encounter per hour
Additional		

Your choice will depend on which combination of features in each alternative matters most to you.

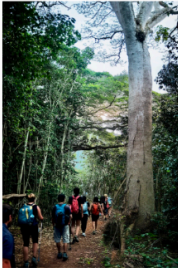

Remember, your responses will help inform real decisions about sustainable trail management in Hawai'i.

For this example:

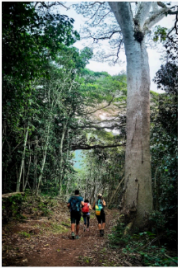

- If you prefer **Alternative One**, click the button under Alternative One.

	Maintained, many areas are fresh, erosion, or broken infrastructure)	Maintained, some areas are deteriorated or infrastructure issues)
Habitat Quality	Moderate chance of seeing native species; a mix of native, non-native, and invasive plants along the trail	High chance of seeing diverse native species; native plants dominate most areas along the trail
Crowding	 0 - 5 people encounter per hour	 Over 15 people encounter per hour
Additional Cost per Trip	\$40	\$20

- If you prefer **Alternative Two**, click the button under Alternative Two.

Condition	Maintenance, many areas show wear, erosion, or broken infrastructure)	Maintenance, some areas show deterioration or infrastructure issues)
Habitat Quality	Moderate chance of seeing native species; a mix of native, non-native, and invasive plants along the trail	High chance of seeing diverse native species; native plants dominate most areas along the trail
Crowding	 0 - 5 people encounter per hour	 Over 15 people encounter per hour
Additional	\$40	\$20

- Or, if you don't like either option, you can choose **“None of the options.”**

Condition	Maintenance, many areas show wear, erosion, or broken infrastructure)	Maintenance, some areas show deterioration or infrastructure issues)
Habitat Quality	Moderate chance of seeing native species; a mix of native, non-native, and invasive plants along the trail	High chance of seeing diverse native species; native plants dominate most areas along the trail
Crowding	 0 - 5 people encounter per hour	 Over 15 people encounter per hour
Additional	\$40	\$20

This page includes a 15-seconds timer. The Next button will appear once the timer ends. Please use this time to review the information above.

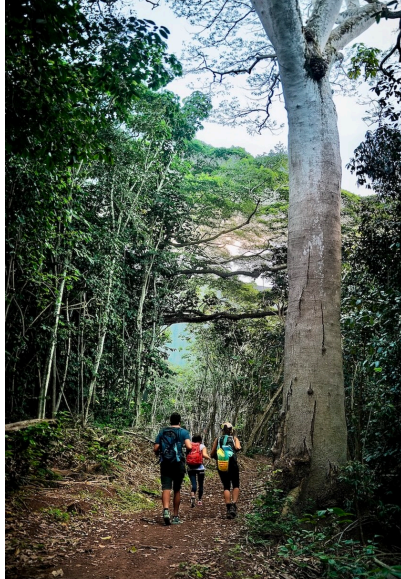

14

WTP (Block 1)

Please review the two trail alternatives below and choose the one you prefer.

If neither option appeals to you, you can select “None of the options.”

	Alternative one	Alternative two
Trail Condition	25% maintained (Minimum standard of maintenance; many areas show wear, erosion, or broken infrastructure)	75 % + maintained (Well-kept surface and infrastructure; minimal wear or safety issues)

Habitat Quality	Moderate chance of seeing native species; a mix of native, non-native, and invasive plants along the trail	High chance of seeing diverse native species; native plants dominate most areas along the trail
Crowding	 5 - 15 people encounter per hour	 0 - 5 people encounter per hour
Additional Cost per Trip	\$10	\$5

☐ None of the options
 ☐ Alternative one
 ☐ Alternative two

Please review the two trail alternatives below and choose the one you prefer.

If neither option appeals to you, you can select “None of the options.”

	Alternative one	Alternative two
Trail Condition	75 % + maintained (Well-kept surface and infrastructure; minimal wear or safety issues)	50% maintained (Moderate maintenance; some areas show deterioration or infrastructure issues)
Habitat Quality	Moderate chance of seeing native species; a mix of native, non-native, and invasive plants along the trail	Very low chance of seeing native species; mostly non-native or invasive plants along the trail

Crowding	 5 - 15 people encounter per hour	 0 - 5 people encounter per hour
Additional Cost per Trip	\$40	\$10

☐ None of the options
 ☐ Alternative one
 ☐ Alternative two

Please review the two trail alternatives below and choose the one you prefer.

If neither option appeals to you, you can select “None of the options.”

Mangement v Non management

This next question will look a little different from the previous ones; there is no cost included.

Simply choose the management option you prefer overall.

Alternative one	Alternative two
-----------------	-----------------

- 25% maintained (Minimum standard of maintenance; many areas show wear, erosion, or broken infrastructure)
- Very low chance of seeing native species; mostly non-native or invasive plants along the trail
- Over 15 people encounter per hours

- 50% maintained (Moderate maintenance; some areas show deterioration or infrastructure issues)
- Moderate chance of seeing native species; a mix of native, non-native, and invasive plants along the trail
- 5 - 15 people encounter per hour

☐ None of the option ☐ Alternative one ☐ Alternative two

This next question will look a little different from the previous ones; there is no cost included. Simply choose the management option you prefer overall.

Alternative one	Alternative two
	

☐ None of the option ☐ Alternative one ☐ Alternative two

Certainty follow up

Thinking about all the choices you just made about trail management preferences, how certain are you about your decisions?

Please use the slider below, where 0 = Not certain at all and 10 = Very certain.

			Not certain at all Neutral Very certain		
			0	10	
					

Payment Preferences

Would you be willing to support a user fee mechanism to enhance trail management efforts? (e.g., restoring trail condition, improving habitat quality, and crowd control)

☐ Yes

☐ No

If user fees were implemented, please rank the trail types below from the one you would MOST prefer to have fees, to the one you would LEAST prefer to have fees.

Drag to rank from most preferred (top) to least preferred (bottom).

Trails located in ecologically sensitive areas (e.g., native habitats, endangered species zones)

Trails with waterfalls or unique natural features

Trails offering additional amenities (e.g., parking, restrooms)

Trails requiring substantial maintenance costs (e.g., erosion-prone areas, frequent storm damage)

Trails with high levels of tourist activity (e.g., popular or heavily visited sites)

If user fees were implemented, which payment type would you prefer?

- ☐ Per-entry fee (pay each time you use a trail)
- ☐ Daily pass (one payment allows unlimited trail entries in a single day)
- ☐ Annual pass (one payment allows unlimited trail entries for a year)
- ☐ Voluntary donation (optional payment, not required for trail entry)
- ☐ Other (Please enter answer in the box)

If user fees were implemented, which payment method would you prefer?

- ☐ Online pre-payment (pay before your visit through a website or mobile app)
- ☐ On-site payment (pay at the trail entrance using a kiosk, QR code, or cash drop box)
- ☐ Centralized payment (pay at a staffed location such as a visitor center or hotel lobby before visiting the trail)
- ☐ Other (Please enter answer in the box)

Cost Allocation & Usage Behavior

To ensure quality responses, please select 'Agree' for this question.

- ☐ Strongly Disagree
- ☐ Disagree
- ☐ Neutral
- ☐ Agree
- ☐ Strongly Agree

In Hawai'i, trails require regular maintenance to remain safe, accessible, and ecologically healthy. Many trails are used by both residents and visitors, which increases the need for ongoing upkeep. Currently, most trail funding comes from the state, meaning residents already contribute through taxes, but visitors also benefit from using these public trails.

Who do you think should bear the majority of the cost for trail management?

- ☐ Only Residents
- ☐ Only Visitors
- ☐ Both, equally
- ☐ Both, but majority residents
- ☐ Both, but majority visitors
- ☐ Other (Please enter answer in the box)

In the future, some trails in Hawai'i may require a user fee to help fund improvements, such as better maintenance, habitat restoration, or crowding management. The specific improvements may vary by trail.

How likely are you to use trails that require a user fee?

[illegible]

		0		10	
					

Imagine 10 people you know—friends, family, or coworkers. If you had to guess, how many of them think that people should pay a user fee to use trails?

		0	10	
				

Please rank the following trail improvements based on how confident they would make you feel that your contribution (via user fees) is making a meaningful difference.

Drag to rank from MOST confident (top) to LEAST confident (bottom).

Improve habitat quality

Enhance trail maintenance and condition

Reduce overcrowding

If most trail users choose to pay usage fees, which of the following improvements do you think would be the MOST and LEAST effectively addressed?

Drag to rank from most effectively addressed (top) to least effectively addressed (bottom).

Improve habitat quality

Enhance trail maintenance and condition

Reduce overcrowding

Volunteer hours and WTP

If given the opportunity, how many hours would you be willing to volunteer as a one-time contribution to support trail management improvements (e.g., restoring trail conditions, enhancing signage, or addressing invasive species)?

- ☐ None
- ☐ 1-2 hours
- ☐ 3-5 hours
- ☐ More than 6 hours

Let's set aside your previous choices about trail management for a moment. If part of the user fee was used to support and equip community volunteers (e.g., tools, supplies, safety gear), how much would you be willing to pay each time you use a trail? Please answer in U.S. dollars.

Environmental profile

In the past 12 months, have you paid a fee to access a natural area, including in Hawaii (e.g., park entrance fee, trail permit)?

- ☐ No
- ☐ Yes

Are you currently a member of an environmental or conservation group (including groups involved in public meetings or natural resource management)?

- ☐ No
- ☐ Yes

In the past 12 months, have you participated in any volunteer activities related to trail maintenance or habitat restoration (e.g., clean-up events, workdays)?

- ☐ No

☐ Yes
